

Do you really need high quality serum free, protein free, animal origin free, and fully defined freezing media for CHO cell, Hybridoma cells, or Stem cells?

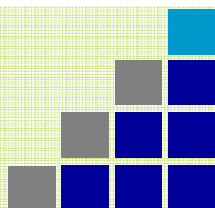

CRYO-GOLD is No serum, No protein, No animal origin, and fully defined high quality CHO cell, Hybridoma cell, iPS cell, or Adult stem cell specialized freezing media.

- * Ready-to-use, No antibiotics, No additives
- * Maintain long term cell storage at -80°C (Without LN2 tank)
- * Maintain good cell/tissue viability and functionality
- * Even without serum, guaranteed high quality of cell's Viability, Yield and Functionality.
- * Suitable for CHO cells, Hybridoma cells, Adult stem cell, iPS cells, Sperm, Oocyte, Embryo
- * Stabilize cell plasma, mitochondria and nucleus membrane, Completely inhibition of Apoptosis and Necrosis, Minimize freezing and thawing stress due to fully inhibition of intra/extracellular ice formation.
- * Store at 2~8°C, long expiration date (1 year).

Human iPS stem cells

Product	Cat. No	Size
CRYO-GOLD, Sterile filtered, Endotoxin Tested	10003-01	100 mL
CRYO-GOLD, Sterile filtered, Endotoxin Tested	10003-02	50 mL
